W. H. Richards and wife desire
through the Sentinel to express their
grateful thanks to all those kind friends
who so kindly rendered their assistance
in their late affliction.

Our young friend Matt Saville is at
home from West Point on a sick leave
until June 1st. Matt's sickness originated
from copper poisoning, which was con-
tracted by eating fruits cooked in copper
kettles.
A telegram reached Mrs. Bettie
Bunker on Sunday announcing the death
of the six months' babe of W. B. Christy
and wife. Mrs. Bunker left on the Can-
on Ball train for Evanston, Illinois, Sun-
day evening.

John G. Cowan and Son shipped in
seventy five head of cattle last week for
feeding purposes. Quite a large number
of cattle are being driven into the county
for feeding, which will help to keep up
the price of corn.

Rev. A. H. Howe, Evangelist of Ne-
braska, gave a series of meetings at the
Mound City Baptist church, on Friday
evening last. He is known as a fine
preacher, and is meeting with great suc-
cess wherever he is called to labor.

The literary at Fairview is in a most
flourishing condition, with John Morris
as president. The question last Wed-
nesday night was: Resolved, that the
prohibition party has been a detriment
to the cause of temperance—decision in
favor of the affirmative.

There will be quarterly communion
at the Oregon Presbyterian church next
Sabbath, preceded by preparatory ser-
vices on Thursday night at 7:30 p. m.,
one half hour later than usual on ac-
count of the supper to be given that
evening by the W. C. T. U.

The examination of Jacob May for
assaulting John Adkins was held on Sat-
urday last before E. J. Brown and
Hart, at Corning. After a spirited con-
test on the part of the attorneys, the
defendant was discharged. Messrs. Kel-
logg and Stokes appeared for May and
Kennish and O'Fallon for Adkins.

T. M. Davis, mayor of Whig Valley,
was in town Friday and gave the News a
call. The News thinks it would be a
good idea to promote Matt next fall and
make a county judge of him. We don't
know of any better timber and if judicial
lightning strikes him the News may be
counted in as having a good word for
him. Mound City News. We say amen.
No better or more worthy citizen dwells
among us than Mr. Davis, and he would,
beyond question, make a first class
judge.

We were in Mound City on Satur-
day last, and were surprised at the noted
improvements that had been made in
our sister town the past year. We had
a very pleasant call with that live mer-
chant, K. C. Glenn. He has undoubtedly
the finest and most complete line of fur-
niture, carpets and house furnishings to
be found outside of St. Joseph and the
larger cities. His stock is purchased
from first hands and consists of all the
plainer goods including the most elegant
parlor sets, and bed room suits, in prices
ranging to suit all classes and conditions
of society. His stock has been greatly
enlarged, and to find room for this he
has united his two large second story
rooms, which with his first floor room
and basement, gives him beyond doubt
the largest furniture emporium outside
of the metropolitan cities. Mr. Glenn has
just placed in his rooms, a large line of
goods suitable for wedding and holiday
gifts, and when you conclude to make
either, you will find it greatly to your
advantage to give Mr. Glenn a call. He
is a very pleasant gentleman, and his
courtesy will be cheerfully extended to
all who call, whether you buy or not.

Ladies,
I have just received the Accordion Plei-
ster, and am now prepared to do plating
for you by the yard, to any amount re-
quired. All orders promptly attended to.

work for yourselves. Mrs. B. Watson,
Milliner.

A sort of epidemic seems to be pre-
vailing among cattle in some parts of the
county. Several cows have died within
the last few days in Maryville. Mary-
ville Democrat.

Uncle Solomon Green, colored, who
for years was janitor of the Presbyterian
church of this city, but of late years a
resident of Paola, Kansas, died at the
latter place about two weeks ago.

Married, at the residence of her son,
John M. Croley, of this city, Tuesday
evening, November 27th, 1889, Mrs. Eliza
Croley to Rev. W. L. Carter, of Cam-
eron, Kansas, Rev. Diggs, of Cam-
eron, this state officiating. They will make
their home in this city. The Sentinel
extends congratulations.

W. L. Plattenburg and W. A. Shinn,
of the Railway Mail Service on the K.
C. road, was in attendance at the wed-
ding of their colleague, M. J. Moore.
They are both very agreeable and pleas-
ant gentlemen, and it makes one feel
good to meet such affable gentlemen.

George Graham and Mrs. Reavis, of Kan-
sas City, were also in the city attending
the wedding.

The first snow of the season began
to fall Tuesday morning. It was pre-
ceded by a light deposit of sleet, they
followed fine snow, which soon covered
the ground to the depth of one-tenth of
an inch. It melted in a few hours. Dur-
ing the day snow, rain and sleet contin-
ued to fall at intervals, and light snow
through the night. Wednesday morn-
ing snow again whitened the ground to
the depth of one-tenth of an inch. This
is, with one exception, the latest for the
first fall or snow for thirty-five years.
The exception was in 1877, when the first
fall occurred on the 28th day of Novem-
ber, two days later than this year.

On Wednesday evening, 27th inst.,
Mr. M. J. Moore and Miss Minnie Holtz
were united in marriage at the home of
the bride's mother, Mrs. Kate G. Holtz,
of this city. Rev. Roberts of the Presby-
terian church officiating. The wedding was
a very quiet one, only the immediate rela-
tives and a few special friends being
present. Both of these young people are
highly favored, possessing all those ex-
cellent qualities that go to make up the
typical man and woman—husband and
wife. We join with their legion of
friends in wishing them all the prosper-
ity and happiness possible. The happy
pair left on the mid night train for Chi-
cago, and other eastern cities, for the
full enjoyment of their honeymoon.

The Public School children will give
a Thanksgiving program at the Christian
church, this Friday evening, November
29th, the proceeds to be used to buy
Geographical and Historical Maps for
the lower departments. Admission 15
cents for adults and 10 cents for chil-
dren. Turn out and encourage the chil-
dren and help your school along. Don-
ations are also solicited for the poor schol-
ars, for there are a number and some
have been kept out of school for the lack
of necessary clothing. Names of the
nearly will be furnished to any who wish
them, or if the donations are sent to the
teachers they will see that they are prop-
erly bestowed. Those who are surround-
ed by the comforts of life can not truly
thank God until they have done all they
can for the relief of the poor and suffer-
ing around them. Exercises will com-
mence at 7 o'clock p. m.

—Carm. Morgan has returned from a
trip through the Southern states.
—W. A. Cochran has been quite ill for
several days, but is now much better.
—Henry Shmits and wife are visiting
the father of Mr. Shmits at Joliet, Illi-
nois.

—The teachers ask the parents and
friends of the school to turn out to-night
(Friday) and hear their little ones.

—N. J. Kyger has purchased the liv-
ery stock of Samuel Stuckey, and has
taken possession. Consideration, \$3,000.

night (Friday). This is for the benefit
of your children. Patronize it, citizens
of Oregon.

—T. C. Dungan is at his old home in
Ohio, attending the settlement of his
mother's estate—his mother having died
about a year ago.

—Our schools re-opened on Monday,
and are again in good working order.
There is not a single case of diphtheria
in our city at this time.

—The daughters of Joseph Foster and
John Colhauer are reported to be sick
with diphtheria. They are residents of
the country, several miles from our city.

—The officers of the state board of
agriculture, elected at the meeting re-
cently held, are: J. H. Potts of Audrain,
president; F. W. Smith of Boone, vice-
president; L. C. Chubbuck, secretary;
John L. Clarkson, treasurer. The of-
fice of the secretary and treasurer is at
Columbia.

—A farmer says: "I put into a barrel
of sweet cider a quart of milk, about a
half pint of mustard black and six
eggs. Mix them up and pour them into
the barrel. The cider will keep sweet
that way half a dozen years. I think it
gets much better and sweeter the longer
you keep it."

—A great many farmers are now
throwing to their hogs all the ear corn
they will eat. See that they have a
chance to get at an ash heap, a salt
trough and a bin of charcoal; also let
them have what fresh water they want
and if the corn is husked give them
some green feed.

—James W. Duncanson, of Oregon,
Mo., has business in Savannah, Ga. Wed-
nesday. The Judge is one of Andrew
Cannon's pioneers, and we were glad to
observe he was enjoying excellent health
and spirits, with a lively recollection of
the early days, when neighbors were
miles from each other. Savannah Re-
porter.

—A Minneapolis lady has entered the
field of weather prophecy. Her theory
is the law of equilibrium—in which the
signal service admits there is something
—and she argues from the minimum of
precipitation last winter and summer
that November will be rainy, snowy, but
no cold. Winter will begin in earnest
during December. During this winter
we will experience the heaviest fall of
snow seen in the northwest for years,
and a hard season.

—On Tuesday evening, when Mrs. J.
A. Sanders and Mrs. J. W. Arley were
out buggy riding, the horse, shied at a
pile of lumber near the residence of W.
D. Clark, and one wheel of the buggy
was broken, which let the buggy down,
the occupants being thrown out. Mrs.
Arley was not seriously hurt, but Mrs.
Sanders was so unfortunate as to have
an arm broken. The horse ran away
and further injured the buggy. Savan-
nah Reporter.

—By a recent decision of the United
States Supreme Court, if the drawer of
a check on a bank does not use precau-
tion to prevent alteration, and the bank
inadvertently pays the altered check,
the drawer must stand any loss occasioned
thereby. "When the drawer has drawn
his check in such a careless and indis-
criminate manner that a material altera-
tion may be readily accomplished without
leaving a perceptible mark or giving the
instrument a suspicious appearance, he
himself prepares the way for the fraud,
and, if committed, he and not the bank
should suffer." This is the word of the
court.

—If you contemplate making a wed-
ding or Christmas present that will be
useful, handsome and elegant, go and
inspect the large stock of Watches,
Clocks, Jewelry and Silverware of every
description that Henry L. Eads has just
received at his store in Mound City. He
has in stock just what you want, and at
prices as low as first-class goods can be
sold. He urges you to see him before mak-
ing your purchases. He will also repair
your Watch, Clock, or anything in the
Jewelry line to your complete satisfac-
tion. He is a practical workman in
every branch of his trade; also a prac-
tical optician, and is prepared to fit glass-
es to suit any eye.

—The Attorney General has decided
that it is a violation of the anti-trust law
for druggists to enter into agreements
with patent medicine manufacturers to
maintain certain fixed prices on their
goods. Hereafter liver investigators, corn
plasters and cure-alls must take their
chances in open and unrestricted com-
petition. The druggist who offers the
largest bottle of liniment or the largest
number of pills for the least money
will secure the trade of the in-
valued population. Hereafter in this
State, retail druggists may sell a bottle of
pills or a barrel of cornplaster for two bits,
if they want to; and they will not be al-
lowed to enter contracts binding them not
to want to. —St. Joe Gazette.

—Henry Speaker, an aged farmer
residing about five miles northeast of
Boileau, came to death in a frightful
manner Thursday afternoon. He was in
a wood lot preparing timber for the founda-
tion for a corn crib. He had put a
charge of powder into the log for the
purpose of splitting it. He ignited the fuse
and then sought protection from the
blast behind a large tree. It is believed
he had stepped to one side to make ob-
servations as to the tardiness of the fuse
when he was struck on the head by a
piece of timber from the shattered log.
He is supposed to have been instantly
killed. His body was found about 1
o'clock, and was supposed to have been
killed at 10:30, as it was about this time
the blast was put off. Mr. Speaker was
about 70 years of age. Boileau Herald.

JESSE C. FITTS, Proprietor,
ONE PRICE CASH STORE,
OREGON, MISSOURI.

—Sewing Machine, Needles and Sup-
plies for sale by H. E. Denny.
—Charles Knapp was accidentally shot
and killed near St. Joseph, Monday last,
while, by companion named Munson. The
men were out hunting.

—It was announced in the St. Joseph
times that a passenger train would be
put on this line last Monday morn-
ing. The information was received from
some of the railroad officials and was
supposed to have been true, but we just
received word from the St. Joseph
times that the latter part of last week
decided, from some cause, unknown to
us, not to put a passenger car on the line.
So matters stand. Fairfax Star.

—The advertising rates of the St. Jo-
seph Herald are as follows: Political cam-
paigns, 25c per line, each week; ob-
ituaries, 10c per line; notices, 5c per line;
wedding presents, 10c per line; celebra-
tions and resolutions of respect, 10c per
line; church societies, charitable and
amateur societies and society meetings, 5c
per line; marriage notices, 5c per line;
obituary notices, 5c per line. All the ad-
vertising matter is supposed to be paid
for nothing, and is "carried" for his ser-
vice if he fails to get the particular ad-
vice. King City Chronicle.

—Dr. D. H. Henderson, of Boone, Mo.,
was indicted and tried for a violation
of the law regulating prescriptions, and
acquitted. Judge Harshbarger ruled that
if it was the opinion of the physician that
the patient needed whiskey, he had the
right to prescribe it, whether the patient
thought he needed it or not; that a phy-
sician had a legal right to give a man
one prescription a day, or four a day, if
the prescription was given in good faith
and for medical purposes; the physician
owing to his superior medical skill, was
the sole judge in the matter. Three of
the prescriptions were for a pint of
whisky each and one for half a pint,
issued in one day and to a negro.

—On Monday last week a man by the
name of Frank Kenebec was arrested
at Mound City, Anderson county, for a
number counted eighteen months ago
near St. George, Kansas. The man
arrested was living alone and was
stopped for breakfast with a neighbor
and employed for his home. The
day the deed was found where he
had been murdered in bed. A photo-
graph was found on the floor, which was
recognized as the likeness of the man
being hunted for the murdered man. A
team and wagon was missing and ad-
ditional evidence in the case was
discovery of Kenebec, who was
working for a farmer near Mound City.
When arrested Kenebec protested his
innocence and claims that he can prove
his whereabouts at the time the murder
was committed. He was taken to Kan-
sas for investigation of the charge
against him. Of course, if he is in-
nocent he can easily prove the facts, and
if guilty it is another case of "murder
without a trace." Ex.

Outraged.
Another shooting occurred in
our county on Wednesday morning.
Mitchell Griffin and J. D. Newland
are brother-in-laws and live near the
east of the Wilson farm on the Kimp-
about six miles west of this city. They
were to gather their corn crops on the
sharps and Mitchell was at work on the
Newland place. On Tuesday Newland
had business at Mound City, and left
home quite early, leaving Griffin and his
brother to gather corn. Griffin com-
plained and did not go to the field, but
remained at the house of Newland. To-
wards the middle of the afternoon, and
while Mrs. Newland was at her household
duties, Griffin approached her and forc-
ing her to her bed, succeeded in outraging
the women. About dark Newland re-
turned home, when the wife informed
her husband of what had happened. The
husband waited until Wednesday morn-
ing when he went to Griffin and after
quarrelling and an exchange of hot
words, the husband endeavored to bring
the outrage to Oregon and place him in
the hands of the officers. Griffin refused
to go, and Newland, having a shot gun
with him, supplied the contents of one of
the barrels into the shoulder of Griffin.
The wound is an ugly one and in all
probability will cost the man an arm.
Mrs. Newland is a daughter of Sid Willy,
Dr. Kearney was called to attend the
wounded man.

Accidental Shooting.
An accident, which may yet prove fatal,
occurred at the residence of Mr.
Hayes, near Parker, Andrew county, last
Thursday. Ed Johnson, a young man of
about 18, and a stepson of Mr. Hayes,
accidentally shot the old gentleman's
son. The ball passed just between the
stomach and heart and came out im-
mediately under the sixth rib. It is the
same old story which runs like a Revolu-
tionary war song. Young Johnson was
either cleaning or feeding with the
weapon, which was a .38 calibre Smith &
Wesson. He didn't know it was loaded,
and the result of his carelessness has just
been stated. Only a short time ago he
came near killing a child for one of the
neighbors by the discharge of a shot gun
he was feeding with. We are informed
that he intends to either sell or throw
away his weapon. We think it high time
and hope the law enforcement cause, and
lesson to the younger men.

Resolutions of Respect.
In the death of Mrs. Hannah J. Foster,
the W. C. T. U. of Oregon, has lost a
worthy member.
Resolved, that while Mrs. Foster was
not permitted to take an active part in
the duties of our society, her sympathy
was with the temperance cause, and her
earnest desire was that the social destroy-
ing liquor traffic might be abolished.
She had a true Christian character, to
which her family also bore her only
life during her long residence in Oregon.
For her "good part and be with Christ
was her gain." —Cos.
